

Learning about how to wash hands

 I  have learned  some  times that it is a  good

 idea  or  important to  wash hands.

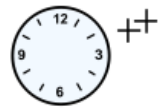

It is important to wash hands after    _____.

It is important to wash hands before    _____.

There are  other  times  it is important to 

 
wash hands as well.

 I  have  learned  some  times that it is a good

 idea  or  important  to wash hands.

 I  will  try  and remember to do the **5**  steps

for  good  hand washing  to make my  hands clean.

There are **5**  steps to  good  hand washing.

 1.  Put  warm water on hands.

 Soap  needs  water to make  bubbles and  clean.

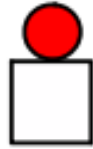

2. Put

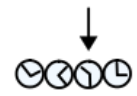

soap

on

hands.

Sometimes

soap

is

hard

and

I

need

to

rub

it

on my hands.

5. Dry my hands.

This means there is

no

water

on my hands.

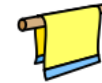

I

might

use a

towel

or

a

paper towel

or

a

hand dryer .

There are

lots of different

types of

towels and

paper towels

and hand dryers.

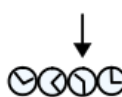

4. Put my hands in the water to rinse off all

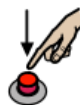

the soap bubbles.

Sometimes soap is liquid and I need to

press the button or the lid to put the soap on my

hands.

If the soap stays on my hands, it might make the

skin on my hands sore.

    
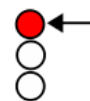

At some toilets in the community the soap comes

  
out automatically when a person puts their hand

   
under where the soap comes out.

    
3. Rub the soap bubbles onto the top my hands.

   
Rub the soap bubbles onto my fingers.

   
Rub the soap bubbles onto the bottom of my

hands.
